

Zachary Svoboda

Full Stack Web Developer

Email: svobodazachary@gmail.com | **216-390-0418** | Cleveland, OH | **GitHub:** [Zsvoboda87](https://github.com/Zsvoboda87)

LinkedIn: <https://www.linkedin.com/in/zachary-svoboda-3a0481225>

Portfolio: <https://zsvoboda87.github.io/zsvoboda-portfolio/>

Full Stack Web Developer leveraging collaborative skills and a natural willingness to learn. I have completed the coding Bootcamp at CASE Western Reserve University and earned my full stack coding certificate. In the recent past, I built a career in live entertainment from the bottom up and worked for artists such as Paul McCartney, Ariana Grande, and Katy Perry. I bring the same energy that allowed me to cultivate that career growth to my new focus as a full stack web developer.

Technical Skills

Node JS • React • Express • HTML • CSS • MongoDB • MySQL2 • Sequelize

Projects

Bored-AF <https://zsvoboda87.github.io/Bored-AF/>

Team Lead, Front End JavaScript

Repository: <https://github.com/Zsvoboda87/Bored-AF>

- **Summary:** BoredAF is a front end application where users can come to the page and cure their boredom. Users can select what kind of entertainment they are seeking in the navigation bar, and then they are prompted with genres or questions to generate entertainment suggestions. The site uses third party APIs from New York Times, IMDB, YouTube, and itunes.
- **Tools Used:** HTML, CSS, and JavaScript, Foundation.
- **Role:** Team Leader, and wrote many of the API calls and Javascript

Puppy-Love <https://mysterious-eyrie-75602.herokuapp.com/>

Team Lead, APIs and Express Server

Repository: <https://github.com/Zsvoboda87/Puppy-Love>

- **Summary:** Puppy Love is a full stack application where users can create a login and build profiles for their dogs to find dates and play dates. Users can browse the Pet Gallery and find potential matches for their furry friends.
- **Tools Used:** mySql, Sequelize, Cloudinary, Materialize, JavaScript, Multer, HandleBars, CSS and HTML
- **Role:** Team leader, wrote many of the API endpoints, and set up the mySql database and server..

Professional Experience
